

About us

Izumi LLC was established in 2013 and currently has 15 engineering and technical employees. We provide professional engineering advice, research and analysis, and power supply planning, as well as facility design development and feasibility study services.

Additionally, we install and renovate energy facilities (up to 110 kV) and power transmission lines and substations (0.4-220 kV), and design the technology used in renewable energy facilities (0.1-100 MW) such as solar, wind, and hydroelectric power plants. Moreover, we perform research such as topographical mapping and three-dimensional planning, as well as engineering monitoring and evaluation.

Renewable energy facilities Assembly and development

Our address:

Khan-uul District, Ulaanbaatar, Mongolia District
2, "TAIJ" Group Building

Warehouse:

Khan-uul District, Ulaanbaatar, Mongolia 13th

"ИЗУМИ" LLC

Partner organization:

Izumi LLC is working together with Chinese company Boyang Renewable Energy Co., Ltd., as an official representative in Mongolia in the field of combined solar and wind energy construction.

Boyang Renewable Energy Co., Ltd. was established in 2001 and is a high-tech enterprise specializing in wind turbine production and new energy system research, development, production, and sales.

Our company offers clean energy conversion solutions to address challenges in rural areas and other zones that do not have access to electricity by providing services such as power supply, heating, water pumps, irrigation, energy efficiency and environmental protection.

Mission

This is a firm that operates based on knowledge and innovation, implements and shares advanced technologies, and is poised to become a top-tier national company that contributes to sustainable development.

Vision

We have ambitions to become a well-respected company reputed for its high-quality technology and reliable services.

Wealth

Security

We prioritize occupational health and safety.

Transparency and responsibility

Transparency and responsibility
We work transparently, value our work responsibilities, and are acutely aware of the impact that our decisions have on the business.
